

# Realize Material Truth with Verusen

The **simplest** way to manage your materials across you networks.

Verusen is a leading Materials Intelligence provider focused on helping global manufacturers streamline their supply and materials management strategy. Using advanced data science and artificial intelligence, The Verusen platform harmonizes disparate material data across multiple enterprise systems to provide material truth for supply & inventory planning and procurement intelligence.

**Outcomes of using the Verusen platform:**  
Reduce risk, optimize working capital, and ensure production uptime to meet customer needs.

**Result:** A foundation organizations can trust to fuel digital transformation and support supply chain maturity initiatives.

**Inventory Cost Optimization**  
**10-20%**  
Working capital reduction

## Verusen Use Cases:

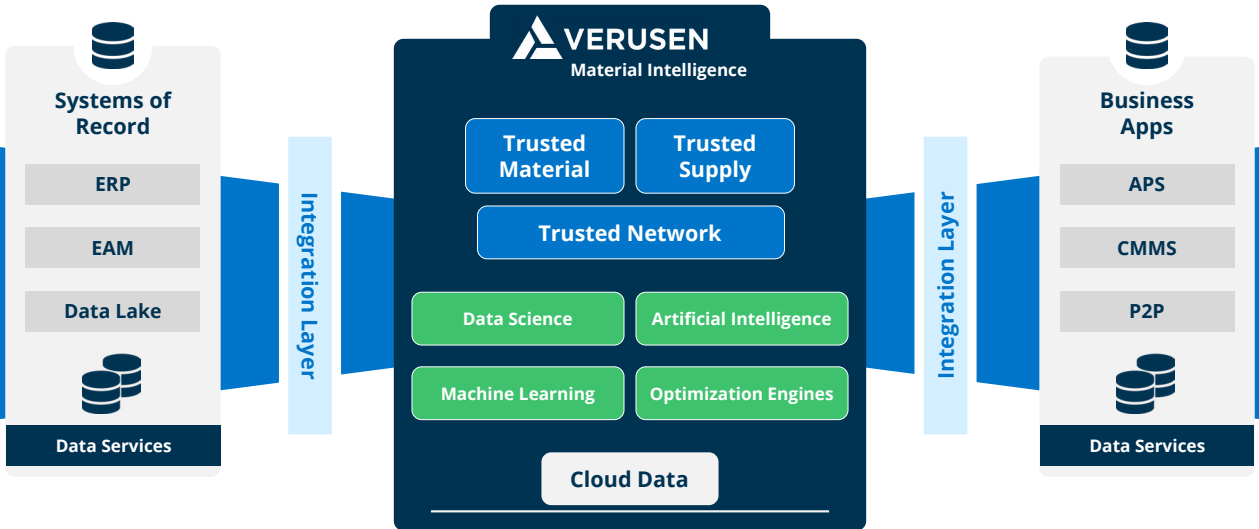

**Top 5 Us Energy**  
**\$18M+**  
Inventory Reduction Opportunity  
**In 45 Days**

**Top 10 CPG**  
**\$100M+**  
Global Working Capital Optimization Opportunity  
**In 24-36 Months**

**Top 3 Pulp & Paper**  
**8X**  
Return on Investment  
**In 3.8 Months**

**Verusen Material Truth™** - Giving you trust that you will have what you need, where you need it, when you need it for the perfect balance of capital and risk

## Why Verusen?

- Capture the expertise of your team members to leverage internal knowledge across your network for improved decision-making
- Harmonize data across all plants, systems, and teams without the time consuming, costly data cleanse
- Gain actionable insights to empower team members to make better decisions
- Implement sustainable, scalable supply chain intelligence into your MRO strategy to reduce risk and improve supply chain maturity
- Improve visibility to materials across your networks via global search capabilities
- Simultaneously optimize materials supply while reducing risk from shortages and outages
- Harness materials spend and supplier performance metrics for strategic alignment
- Implement quickly with minimal IT resources and unlock value within 60 days
- Streamline workflows with intuitive UX/UI that allows users to onboard within hours and eliminate lengthy adoption periods to provide immediate value

### The Verusen Comparison

	VERUSEN	Legacy Data Approach
Time to Value	90 days	24+ Months
Kick-off Length	30 days	6+ Months
Internal Resources	1 resource 2-4 hours/week	5+ resources 30+ hours/week
Profitability (3-year NPV)	8.3X	2.5X
