

Fortune 500 CPG Manufacturer

Verusen helps identify **\$59M** in *savings opportunities* without increasing risk

Customer Challenges

- Company has grown through **multiple acquisitions**
- **Lack of visibility** from siloed decisioning & processes across disparate ERP systems
- **Misaligned incentives** between procurement and operations teams
- **Excess working capital** from duplicate inventory and wasted spend
- **Unable to locate** parts quickly

Verusen's Solution

- Identification of **significant reduction** and stocking policy optimization opportunities
- **Full visibility** to MRO materials across plants and facilities
- **Global material search** allows maintenance and operations teams to quickly locate parts
- All MRO inventory data is now harmonized in **a single platform**
- **Material reviews reduced to 4 minutes** from the 20+ minutes previously needed to
